CITY OF BANGOR.

AN ORDINANCE *for the perpetuation of the Fire Department.*

SEC. 1. BE it ordained by the Mayor, Aldermen and Common Council of the City of Bangor in City Council assembled, That the Fire Department shall consist of a Chief Engineer, and of not less than three established Companies, and of three companies, each of which shall consist of forty men, and of such other Companies as shall hereafter be established by the Mayor and Aldermen.

SEC. 2. Be it further ordained, That the Mayor and Aldermen shall, from time to time form such additional Fire Companies as the wants of the City may require, but no Company is to exceed forty men in number.

SEC. 3. Be it further ordained, That no person under the age of twenty-one years shall be admitted into any company belonging to the Fire Department.

SEC. 4. Be it further ordained, That the Chief Engineer shall be elected annually by ballot in the month of March, by the Council in convention, and in such other time as vacancies may occur.

SEC. 5. Be it further ordained, That the Chief Engineer shall have power to appoint as many Assistant Engineers, and designate their rank, subject to the control of the Mayor and Aldermen as there are Engine Companies.

SEC. 6. Be it further ordained, That the Engineers shall have and exercise all the powers, and be subject to all the duties of Fire Wards.

SEC. 7. Be it further ordained, That the Chief Engineer shall appoint the Foreman and shall have the power to displace the same. But if an Fire man is removed, an explanation may be required by the Board of Assistant Engineers who shall have power to reinstate him.

SEC. 8. Be it further ordained, That each Engine Company shall choose a Foreman, two Assistant Foremen, and a Clerk, all of whom shall be approved by the Chief Engineer. Each Company shall also choose a Steward of its members to be made and kept, and collect all each fire, false alarm and attendance of each Company, and note or cause the same to be noted.

SEC. 9. Be it further ordained, That each member of any company, who shall be absent from an Fire, False Alarm or Meeting of said Company unless for a satisfactory reason given to said Company, shall be fined as follows:—Absence from Fire, one dollar; absence from a False Alarm, three fourths of a dollar; absence from a Meeting, one dollar; and absence from each meeting of said Company, twenty-five cents. The Clerk of each Company, shall report quarterly to the Chief Engineer, all the absences of each men or belonging to his company and what amount is due from each member, for fines.

SEC. 10. It is further ordained, That the Chief Engineer shall be paid, annually, the sum of three hundred dollars, each Assistant Engineer, the sum of fifty dollars, and each Foreman the sum of twenty-five dollars on the first Monday of January of each year. But any Engineer who shall ignore for a less time than one year shall be entitled to only such proportion as the Chief Engineer shall determine. The amount due from each member for fines, shall be deducted from the amount due for his services. And the sums thus deducted shall be kept by the City Treasurer in a separate fund to be called "Firemen's Relief Fund," to be used for the benefit of those members who may be disabled at fires, and when needed for that purpose, may be drawn from the Treasury by the Mayor and appropriated as the Chief Engineer shall determine.

SEC. 11. Be it further ordained, That on the first Monday in May annually and each of the days in the afternoon, the Chief Engineer may order out all the Companies of the department with their respective Engines and other apparatus to examine the members and company shall appear with entire ... uniforms.

SEC. 12. Be it further ordained, That it shall be the duty of the Engineers whenever any fire shall break out in the City to repair forthwith to or near the place where the fire may be to ... the Engines and other apparatus to be arranged and worked in such manner as most effectually to extinguish the fire, and to ... and compel the assistance of all persons in extinguishing the fire, removing furniture, goods or merchandize from any building on fire, or in danger thereof and to appoint guards ... secure the same, and in pulling down or demolishing any house or building, or suppressing any fire and disorder. And it shall be the duty of the said Engineers to preserve throughout the department in going to, working at, and returning from fires, and at all times when companies attached to the department are on duty and ... order

Whig and Courier.

John S. Sayward, Editor.

THURSDAY, MARCH 30, 1854.

Appointment of Commissioner of Schools.

A great want has been felt for this city for several years of some person to take a general oversight and care of the school property, now amounting to a large sum, to make provision for their economical repair, when required, and to keep them and all their appurtenances in best working order. Also to attend to procuring the best school-books, lectures, the purchase of wood and coal, &c., and have it prepared in the proper season and properly packed away: to superintend the cleaning and alteration of school houses in accordance with the wants of the several districts, and to suggest plans for supplying them: to watch carefully the police of the schools and have a vigilance in the lawless, the disobedient and the truant: to labor for bringing under the influence of our schools a like vagrant and neglected child: to hear all complaints of teachers and of parents: to encourage the schools and teachers, particularly to keep up the activity, harmony and progress of the primary and intermediate schools: in short to exercise a vigilant care and oversight of the external and internal condition of the school property and the schools.

The Superintending School Committee of the present year, men of experience in the business and who know as well as any men in the city, what is wanted and the qualifications of a man for the position of Commissioner, have, seemingly, been successful in securing the services of Philip Weaver as Commissioner of Schools for the present year.

Considering the present state of the school property in the city, the school houses owned by the city and the alterations and changes with them, and the general and special wants of the schools, we are satisfied that no more useful, efficient and practical man could be procured or even found, for this work, than Mr. Weaver. He is a man of great activity, of industry, and energy—quick to observe—prompt to decide—ready to act. He possesses a strong executive talent—available financial ability—the power of adapting means to ends—and is a good judge of mechanics work. These qualities fit him beyond most men for the oversight and superintendence of all the school property. He is a man of method and plan and not of impulse, and he has long been trained by necessity as well as from choice, to make every dollar do its full duty. It is not saying too much to declare that in the management of the school property he can more than save to the city the whole amount of his salary.

But this is only in one department; an important one, truly, and one that has been neglected and could hardly be otherwise under the old system. The internal police of the schools, will be attended to by Mr. Weaver in connection with the Superintending School Committee, and especially and personally as one accustomed to the thousand and one matters constantly occurring in school practice, requiring immediate attention. Mr. Weaver, as a member of the School Committee has had an experience in the workings of our school system that has that ready met, that strong sense of common sense, that artless love of the schools, which so well points up in the study of most of the schools as fully to qualify him for acceptable discharge of all these duties. He will have the full command of his time to devote to the office, and we feel with full confidence, from our intimate acquaintance with the man, the qualities of his mind and the services he has performed upon the Superintending School Committee, that he has been wisely selected by the Committee as Commissioner.

There may be, there and there and who may be prejudiced against Mr. Weaver: there may be others who are unqualified to fill his place, and who may therefore have some fears of his success. What we ask, and all we ask, is that Mr. Weaver be allowed to show what he can do in the office—not be thrown a fair trial, without prejudice or partial judgment. This he ought to have, and this every friend of the schools should be willing to grant to him. Let him be judged by his deeds and he will prove successful, even if his capacities shall be the judges. We are confident that we do not mistake as to his qualifications for we have watched him narrowly and can judge of him fairly.

☞ The New York Sun says that the war in which New York has been engaged has tended to aggravate the evils under which the poorer classes suffer. The improvement of property has been retarded and the burthen of property increased by gross mismanagement and reckless extravagance. The purity of morals which has prevailed in the great cities of the city has exercised a bad influence over every department and while the cry of government has gone on increasing rapidly, and look in vain for the evidence of any effort to relieve the working classes.

Make your Return.

It will be seen on reference to the statute passed by the Legislature of this State at the late extra session, that the 13th section of the 6th chapter of the Revised Statutes of Maine was so altered as to require the cashiers of banks and clerks of all other corporations to make their returns to the assessors of towns within seven days after the first day of April in each year, instead of May, as heretofore.

☞ The clipper ship Red Jacket, built by George Thomas, Esq., of Rockland, and which has proved the fastest ship as yet built for the United States and England, has recently been sold in Liverpool for £30,000. Her purchasers were Messrs. Pilkington & Wilson, who will despatch her to Australia. She will sail at about the same time with McKay's new clipper ship Lightning, thus giving a chance perhaps, for another trial of speed.

☞ The demand for vessels is so great in North Carolina that the people there are inviting the ship-builders of Maine to engage in ship-building on their waters.

☞ There is to be a lecture delivered before the Mechanics' Association on Friday (to-morrow) evening.

Exhibition of the Mechanics at Portland.

The Maine Charitable Mechanic Association of Portland have issued a circular, stating that they will hold a Fair and Exhibition for Premiums, in Portland, to commence on the 19th day of September next, and they invite contributions from the Mechanics, Artists and Manufacturers of the United States, and the British Possessions in North America. They hope to receive a piece from every Industrial Profession—choice specimens of ingenuity and skill—unique and valuable domestic productions, natural and artificial—the delicate and beautiful handiwork of females—labor-saving machines, implements of husbandry, new models of machinery, and, indeed articles from every department of Manufacture which it would be impracticable to particularize in a Circular.

The Association has appropriated a sum sufficient to enable the Managers to conduct the Exhibition on a scale of liberality worthy of the object, and in a manner to ensure satisfaction to all. Their connection with other States and with the Canadas, by means of Rail-Roads affords excellent facilities for the transportation of articles to and from Portland: and by the kindness of the Superintendents of these roads they are already assured that there will be no charge for freight of any articles intended for exhibition. Steam-power will be provided, to show any kinds of Machinery in operation, to the best advantage. This Fair will afford the Manufacturer and Inventor a good opportunity to bring his article into extensive notice, and as a result, larger increase the purchasers. As an additional inducement, Manufacturers will be largely awarded to the owners or manufacturers of all articles that may be deemed worthy of that distinction.

The interest has started by the Mechanics not only of this State, but throughout the Union, in every thing that tends to improve Manufactures and the Mechanic Arts, fully confirms the belief that lasting benefits will result from this movement; not only to those noble branches of industry, but also to those who offer articles for exhibition, or witness their display. Emulation is the soul of success; and we trust it will be entered into by every department of every mechanical industry.

It has been truly said—"That no better mode of promoting the interests of the Mechanic, the Manufacturer and the Artist, has yet been devised than to make public exhibitions of various productions, at some central mart; as they are thus enabled to bring their several productions into extensive notice, and have an opportunity to enlarge their circle of acquaintance with those engaged in similar pursuits. Probably no one ever visited an exhibition of works of art, without being forcibly impressed with its great value to the Public."

To the Mechanics, Manufacturers and Artisans of our State, the Managers of the Exhibition appeal, and urge them to enter into this spirit vigorously, not only for their own advantage, but also for the honor of the whole industrial portion of the State of Maine, and for the healthy competition it promises with their Brethren of other portions of the Union.

☞ Cooke's Band are to be present this evening at the City Hall, and will favor the company with some of their choice music. The Levee will be of general and special interest to all, and those who can should attend.

☞ Hiram Ibbe, Esq., of Camden, has been nominated by the Governor Judge of Probate for Waldo county to fill the vacancy occasioned by the expiration of Judge Miller's term of office.

☞ Richard Soule Willis, in the Independent, divides phonetic reasoning at the present day into three classes, to which he gives the following bellicose designations: The benumbed, the smiting effect, and the dance effect, and the rude club effect.

☞ It should be borne in mind that the stones of plum, cherry and other stone-bearing fruit trees, should be set as grafts early in the season—before the sap leaves the ground.

Duel between Mr. Cutting and Mr. Breckenridge.

NEW YORK, 28th.

Washington correspondents concur in the statement that a duel is in train between Cutting and Breckenridge. The correspondent of the Courier and Enquirer says that the difficulty between these gentlemen remains unsettled, and a hostile meeting is thought probable.

The Herald correspondent says it is rumored this evening 28th that Mr. Cutting challenged Mr. Breckenridge last night and that an acceptance was received at 4 o'clock this P. M. by Mr. Cutting through his friend Col. Maurice of New York, Mr. Lawes of Kentucky acting as the friend of Mr. Breckenridge.

The correspondent of the Express says that Mr. Breckinridge and Hawkes left in the five o'clock train this P. M. for the North, and it is believed that Mr. Cutting and Hunt also left at the same time, all being engaged in another affair of honor.

Mr. J. D. Holbrook, late City Treasurer of Williamsburg, has been arrested on charge of embezzling city funds to the amount of about $135,000.

Twenty-five journeymen tailors, belonging to the Tailor's Protective Union, were arrested yesterday on a charge of preventing other journeymen from getting employment.

BALTIMORE, March 28.

New Orleans papers of Wednesday are received.

Carleton papers state that the court at Havana had decreed that the cotton on board the Black Warrior was confiscated, and that a fine of $60,000 had been imposed upon the boat, all of which, with remission by the Captain General of the latter.

Six hundred slaves landed at Trinidad, had been seized by the government.

NEW ORLEANS, 27th.

There was a great excitement at the city election to-day. Three men were killed at the polls. [illegible]

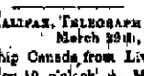
Sam stands were lit to change in Saco. The conservative Maine Law men, are clearing Free street of the "vile stuff," and the ladies, rain or fair, and a quarter over, are down upon Main street. Between them both, the "low drinking groggeries," and the more fashionable places of resort will soon be brought upon a level, if the spirit of reform progresses. Every Maine Law man, whether belonging to the old or the new school, will rejoice at the prospect that the "good time coming," is approaching. On Saturday, two of the denizens of Free street, Jas. Wilde and James Young were convicted with costs in the county buildings, for violation of the prohibitory laws.—Saco Union.

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER.

LATER FROM EUROPE.

ARRIVAL OF THE



CANADA,

AT HALIFAX.

HALIFAX, TELEGRAPH OFFICE, March 29th, 1854.

The steamship Canada from Liverpool 18th of March, at ten o'clock, A. M., arrived at Halifax the 29th, at 4 o'clock, P. M.

The steamship City of Manchester, arrived out the 15th. On the 8th she met many ice bergs and field ice, and had to run southward sixteen hours to find a passage.

The Niagara had returned from Malta.

All the steamers with troops had arrived there, and the Niagara will return with more, and also ships Jinandra, Parramatta, Euchantz, Star of the South, Margaret, Wilson Kennedy, all sitting out at Liverpool with troops.

The Cunard steamship Taurus, sails to-day, (18th) with a regiment for the East. The Canadian had returned from Malta.

The Baltic had not arrived and much anxiety was felt concerning her. The report of the City of Manchester of extensive ice fields caused apprehensions lest the Baltic might have received damage therein.

THE WAR.

The Czar's reply to the last peremptory intimation of Great Britain and France was due March 15th. No answer returned. There were current, however, numerous reports of concessions on the part of Russia. The reports produced no effect on the stock market and were regarded as intended solely to create conflicting discussions, and to retard any complete combination of the European Powers.

As regards hostilities, affairs remain nearly as they were.

On the Danube there had been no movements of importance.

From Asia—nothing.

Public expectation now looks to the Baltic Sea for the next move.

Kalafat continues to be strengthened.

Unimportant skirmishes continue along the banks of the Danube.

From Hermanstadt are accounts of a Russian expedition to the right bank of the Danube, to engage the Turkish battery by land, while a flotilla with supplies should pass up the river. The movement was successful, and the flotilla having passed the Russians withdrew. A similar event occurred on the part of the Turks. Four thousand Arabs having crossed near Silistria made a dash at a Russian battery, and retired with but little loss. The Russians seem to have suspended their intention to attack Kallafat, and menace the Turks at Galatz and Braila.

Omar threatens various points, thus keeping the Russians on the alert.

Part of the Russian force have withdrawn from before Kallafa, but removed toward Orsova.

Order of the day Gortschoff, March 1st, announced that in three weeks Prince Paskiewich, as Generalissimo of the Russian army, would inspect the troops on the Danube.

The Greek insurrection has not quite subsided, but is not formidable. Villages on the Greek frontier are joined by Greek insurgents, but the affairs are quiet.

Insurrection manifests itself in South Albania. The garrison of the Citadel of Arta had chased the insurgents across the Greek frontier, where they were themselves repulsed by Greek troops.

Egyptian troops had been sent to occupy Candia.

Servia quiet. Reported disturbances not correct.

The allied fleets still at Boyces March 6th. The Russian fleet remained at Sebastopol Feb. 22d.

It is reported that the first operations of the Anglo-French army will be to attack Crimea. The troops will land at Bala Khlava to attack Sebastopol by land, while the fleet attacks by sea. The Russians are fortifying the interior cities of Wallachia and Moldavia, especially Fokschani, on the Sehyl. Ten thousand workmen are strengthening the fortifications at Sebastopol, and are also fortifying Odessa and the entrance of D'Neiper—also Cronstadt, Wilborg, and Sweaborg in the Baltic. The Baltic is said closed by ice.

The French fleet, being occupied in conveying troops to the East, will at present send only the Austerlitz line of battle ship to the Baltic, but soon Admiral Dubenes squadron will join that of Napier.

Admiral Corry, in the Neptune, line of battle ship had sailed to join the Napier fleet, and other ships were being despatched. Already 27 sailing ships and 6 steamers are embarking men and horses at Woolwich.

Much excitement prevailed on the Baltic coast.

BRITAIN.

The coasting trade bill was read the 2d time in the House of Lords. Lord Stanley said that by the repeal of laws of the British coasting trade, there was no doubt that the United States would in time see it to advantage to make similar concessions. The Earl of Derby asked, would the effect of passing the present bill, which would throw open the British coasting trade to American shipping, be to give the British the benefit of the coasting trade of America.

Lord Stanley did not mean that it was incumbent on the U. S. to open their coasting trade, but it would relieve them from the constitutional objections that had been urged against opening the carrying trade to California.

Earl Derby tho't that Britain had a strong claim in equity to the whole coasting trade of the U. S. including California. The bill was then read a second time.

In Commons 16th D'Israeli asked if government had received renewed proposals from Russia to settle eastern difficulty. Lord John Russell briefly replied, "No proposition has been submitted to her Majesty's minister at Vienna."

The law of Mortmain endowment of grammar schools, truck system of wages, were the other subjects under discussion in parliament.

The Bank of England declared half year dividend, four and a half per cent—nine per annum.

Warwick Harrison & Co., and Tod M'Gregor, both of Cheapside, London; Gladstone, Bord & Co., Manchester, and Dukerson & Co., Glasgow, have failed.

The Australian steamer Sydney, homeward bound, arrived at St. Vincent disabled, with half million sterling on board. Sidney advices to Dec. 4th. Port Philip 17th, report Auriferia Markets dull and overstocked. Gold plenty.

The South American mail steamer Great Western, at Southampton had Buenos Ayres dates of Feb 2d. Advices, generally favorable.

The Russian frigate Aurora sailed Feb. 12th from Rio for Pacific. The Russian brig Rognada remained at Rio.

FRANCE

The loan is taken with eagerness, not only in Paris, but in the Provinces much of it is taken in small sums.

Prince Hohenz Ollern had presented an autograph letter from the King of Prussia to Napoleon. The latter is not published, but it is reported declares Prussian neutrality, and suggests a new mediation by Prussia. Napoleon's reply was—"Prince, I am happy to see you as a friend, but as regards your mission, it is altogether too late."

It was supposed that General Grobelon's mission to London would similarly fail.

Gen. Canrobert left Paris on 13th for the East, accompanied by Gen. Bosquet.

An extraordinary plan is mooted to buy up and suppress all private journals except the Moniteur and Journal de L'Empire, had to establish one government paper at the chief city of each department. The plan was naturally discussed by the ministers, but was postponed indefinitely.

PORTUGAL.

Serious difficulty had occurred between the students of Coimbra and citizens. All quiet at last accounts. The Chambers of Peers had voted an address to the Crown.

SWITZERLAND.

Numbers of emigrants from Tessino are preparing for California via Havre.

ITALY

Rome. The Sultan is reported to have sent friendly Autograph letter to the Pope, which very well received. Tobacco and saltmonopoly had been extended in the Roman States for nine years. Food riots had occurred at Fabriano, but were suppressed by the military.

DENMARK.

An address has been voted in both Houses of the Danish Parliament demanding the dismissal of the Oersted Ministry, besides arming Copenhagen, Coburg, &c. Denmark is fitting out a fleet of 300 guns.

SWEDEN.

Arming is actively going on. Orders have been given for fitting up seven line of battle ships. Two camps are to be formed—one at Carlskrona and another near Stockholm. The garrison of the Island of Gothland has been increased to 16,000 men.

PRUSSIA.

Prussia evinces more symptoms of leaning towards the Western Powers. An address by several members of the Chambers called upon Baron Man suffed to give an explanation of the point on of Prussia in the coming war. Manteuffel replied that government would shortly make an explanation, and in the meantime the fleets in the Black Sea are those of Powers with whom Prussia in accord.

RUSSIA.

On the 5th, martial law was proclaimed at St. Petersburg and throughout Russia and Poland. St. Petersburg is placed under the command of the Czar's eldest son. The regime is now the same as in Tauris, Crimea and Bessarabia.

Warsaw papers state by authority that Russia never counted the co-operation of German Powers, but merely strict neutrality, which neutrality they say has been firmly promised.

The exportation of grain from the Danubian Principalities is forbidden after the 15th inst.

INDIA AND CHINA.

Overland mails detail news from Bombay to February 1st, Calcutta 4th, Hong Kong January 2d. Nothing important from India. The affairs respecting an invasion by Russian troops was subsiding. Affairs in Burmah continue unsatisfactory to the British. No movements reported from Afghanistan. Tranquility prevailed at Teheran and Bushire. The Persians had made no movement against Bagdad.

Trade in India about average for the season.—Imports and exports are but little changed. Money is rather tight. In Madras Presidency provisions are scarce, but not famine scarcity.

From China there is little new or definite. Pekin is reported to be closely invested. An American squadron of three steamers with two steam ships in tow left Hong Kong, Jan. 15th for Lob Choo and Japan. Freight to the United States from Canton, Jan. 28th, at $20 nominal. California gold, $13 to $14 50 per ounce.

SHANGHAE Jan. 19th.

Freights $22. Tonnage wanted for the west coast of Africa.

SIERRA LEONE, Feb. 23d.

The coast is healthy. Nothing in slave trade.

Liverpool Cotton Market. The Canada's advices to the 14th gave rather more firmness, but as the trade purchased with great caution the market underwent no material dullness, and prices rather favored the buyer, although not quotably lower. Sales generally have not been pressed, but importers offered the late liberal arrivals freely. Week's sales 32,650.

Liverpool Breadstuffs. The weeks business limited. Flour further receded about 18d to 2s, being relatively the cheapest article with moderate transactions at Richardson's quotations. Western Canal 36s; Philadelphia and Baltimore 36s 6d. Scut 32s 6d a 33s. Wheat in retail only, 3d to 4d lower. White 11s 2d to 11s 8d. Red 10s 6d a 10s 10d.

Indian corn difficult of sale offered 6d to 1s reduction. White 44s a 45s, yellow 44s, mixed 43s.

The weather was very favorable for agriculture.

Liverpool Provisions. All circulars report beef and pork dealt in, to a large extent, at full prices, and the market was pretty well cleared. Cleveland beef had sold at 105s. New Western Pork 75s. Bacon, sleady—prices rather lower, 46 a 47s. Cheese all in the dealers hands. Butter sales at U. S. Auction, 56s for grease to 78s 6d. Lard dull 58s a 65s 6d.

THE LATEST.

The Czar's reply could not arrive from St. Petersburg till the 26th or 28th of March.

In Parliament, Mr Gibson moved an address praying that in the event of war Her Majesty would give directions to cruizers to abstain from interfering with neutral vessels not containing contraband munitions of war. He also suggested the policy of entering into a similar treaty with the United States and other countries. Reporter left Parliament before the close of the session.

The Morning Chronicle's Paris correspondent writes that at a council of Ministers despatches from the French Envoy in London were read. The Envoy stated that the English Cabinet is not disposed to look upon the propositions made by Prussia, for resumption of negotiations between the Western Powers and Russia as serious, or likely to lead the pacific solution. Therefore there is no necessity for the two Cabinets to occupy themselves with the propositions.

The English government declare that the only thing to be done at present is to hasten the embarkation of troops for Constantinople, and dispatch of the third squadron to the Baltic.

The opinions of the English Cabinet were fully approved of by France.

PARIS, Friday.

The price of wheat has fallen at least 2f per Hectolitre. Barley and Oats have fallen in proportion.

In almost all the markets in and Paris there has been a corresponding fall.

There was no business at the Bourse on Friday. Threes 66,25. Fours and quarter per cent 92 50.

It is said that the subscription to the loan already amounts to 10,000,000 francs.

BERLIN, Friday.

The Grand Duke Constantine has started from the fleet at Helsingfors. The Emperor was expected in a fortnight.

The gulfs of Bothnia and Finland are covered with ice.

The Swedish papers report that 30,000 Russians are employed in cutting a channel from Cronstadt to Sweaborg.

VIENNA, 15.

The Gazette de Paris says the treaty between the western powers and the Porte is concluded on terms already known and that the treaty itself had reached Vienna and has been forwarded to the other powers.

St. Petersburg, March 7.

Exchange 3 3d. Tallow changes here now feel certain of war.

Sid from Liverpool, March 17th Wild Rover, for Gaetane.

Secret of the Nebraska Movement.

There is a very considerable and constantly increasing Irish population in the New England States, and there is a very remarkable and implacable hostility among the portion of our citizens and the negro race. The antipathy between these two races is so great and so general, that when Mr. Mitchell arrived in the United States he found that this expression of opinion on his part, unfavorable to the negro, would serve very greatly to increase his popularity among his countrymen, the therein boldly proclaimed himself in favor of southern slavery.

Nor are the Irish alone in their hostility to the negro. With few exceptions all of our citizens who have migrated from foreign countries, are utterly unconcerned as to whether, or not, slave territory be incorporated in the Union. Even the English operatives in our factories look with indifference upon the great question of the extension of slave territory.

Senator Douglas has observed these things and having made his calculations for securing the foreign votes and Southern votes, and "don't care" as he boldly undertakes to brave the Free Soil host, and to carry all Nebraska, in consideration that the next presidency is his game. But we have no doubt of his defeat, and that he has stated in the end. It seems to be the settled determination of the people that the slave territory shall not be done from that the settlement rights of the Southern States shall not be withheld secondly, that our slave territory shall not be extended one inch. Jesse D. Man.

Maine Legislature.

SENATE

SATURDAY, March 25.

Mr Torsey, by leave, laid on the table a resolve appropriating $1000 to be paid to the Governor and Council, to be expended in completing the Geological Survey of the State, referred to committee on agriculture.

Finally passed—bills to incorporate Orono bridge proprietors; to revive the act establishing Bristol Steamboat Company; to amend charter of Penobscot Mining Company; authorizing city of Bath to pay Kingsbridge Ferry Company; authorizing administrator of estate of George F. Sweetser to convey certain real estate; to incorporate Saco River Manufacturing Company; correcting error in State valuation in township A No. 2, Range 13 and 14.

HOUSE.

Mr. Burpee, from the Committee on Banks and Banking, reported bill to increase the capital stock of the Exchange Bank at Bangor, which was read once and laid on the table, on motion of Mr. Starr of Thomaston.

Mr Baker from the committee on Education, reported a resolve in favor of schools in Middletown Plantation, which was read once and Wednesday next assigned.

Passed finally—bills to incorporate the Sunnyville Manufacturing Company; to amend the charter of the Piscataquis Mutual Insurance Company; to incorporate the proprietors of Orono Bridge, authorizing the city of Bath to assist the Sagadahock Ferry Company; to revive the act entitled "An act to establish a Steamboat Wharf Company;" to relieve an heir of the administrator of the estate of Geo. T. Howe to convey certain real estate.

Among the war rumors is one that the Irish exiles in New York have had a secret conference lately, at which they resolved to organize a central directory for the purpose of turning the approaching European war to account for Irish independence. Measures are said to be adopted which, if carried out, are likely to give Great Britain employment for her soldiers nearer home than Turkey. Ireland is to be the scene of operation.

Letters from Washington express the opinion that the present tariff will hardly be disturbed this season, notwithstanding the preliminary arrangements to that effect. The Gadsden treaty will enable the Treasury the Homestead bill will cut off the income, the prospective purchase of Cuba will require a large amount of cash, and the affairs of the European world will have an influence upon the question.

CORHAN SALE!

The Rooms at the Corhan Sale will hold a Sale to-night and every evening, at the City Hall, on the evening of Thursday, March 30th—the sales to be appropriated towards the building of a Chapel at the Cemetery in this city.

The doors to be open at 6 o'clock. Tickets 25 cents to be had at the Auctioneer and at the door.

☞ Refreshments will be for sale.

Bangor, March 28, 1854.

Holloway's Ointment and Pills, the most Effectual Remedy ever known for Gout and Rheumatism.—Extract of a letter from Mr. Thomas Wyatt, surgeon, Eton, dated April 26, 1853. "To Professor Holloway.—Sir—A case lately came under my notice which I think should be publicly known. It is that of a poor man who suffered so dreadfully from chronic rheumatism that he lost the use of one side of his body, and endured inconceivable pain. He was under different medical treatment, and at Westminster Hospital the facility sometimes had him carried; he however, by the use of your Ointment and Pills, has been restored to health and strength."

☞ See advertisement. dawr

Dr. Mowse's Invigorating Cordial,

The only sure and safe Remedy yet discovered, for General Debility, Physical Prostration, Irritability, and all the various train of Nervous Affections. It will also relieve Depression, Excitement, Dislike of Society, Insanity for Study or Business, Loss of Memory, Mental Delirium, &c., &c.—See Advertisement.

CARD:

TENNEY & HERSEY take this opportunity to thank their friends in the numerous wards and the public for, and solicit a continuance of, the very liberal patronage they have hitherto received. They would now invite attention to their new and elegant Sale Rooms, at No. 1 and 3 in the new Exchange Block at the corner of Exchange and State streets. These Stores have been fitted up in the most approved modern style, for the accommodation of our friends and the trade, and together with one of the most complete and attractive establishments of the kind in the State. Here we shall keep constantly on hand a very large, rich, and well assorted stock of every variety of goods in our line of trade.

We may also be found at the Old Stand, Nos. 18 and 20 Exchange street, where we will continue to keep the same rich and extensive assortment of Goods as heretofore.

TENNEY & HERSEY.

Bangor, March 2d, 1854.

☞ To the Ladies.—Hurd's Golden Gloss for the Hair, is a preparation which has no equal. It is highly perfumed, and imparts the fragrance of the most delightful flowers. It makes the hair

SOFT, GLOSSY AND BEAUTIFUL,

and causes it to grow luxuriously, preventing it from falling off or turning grey. It removes dandruff, prevents eruptions forming, and keeps the scalp clean, smooth and healthy. It has cured nervous and sick headache by a single application. Ladies who learn its value in this respect will never be without it. Price 25 cts. W. C. HURD, Proprietor, 304 Broadway, New York. S. E. PERKINS, Agent, Bangor. jan9 3m

MARRIED:

In this city, March 27, by George W. Snow, Esq., Mr. Wm. Stevens to Miss Rebecca A. Reynolds, both of Bangor.

In Farmingdale, Oliver W. Johnson, of Hiewer, to Sarah W. Church, of F.

In Biddeford, Russell B. Stiles to Amy M. Hamblin, 2d.

In Saco, Stover to Abigail Lowe.

In Kennebunk, Mr. Moses D. Bowdoin to Harriet Lord, daughter of Moses Springer, of Gardiner.

DIED.

In Charleston, March 20th, Mrs. Esther F. Bunker, aged 33 years.

Lost on board from bad Niagara, of Bangor, on the passage to London, in a gale on the night of Jan. 16th, Edward W. Colman, aged 20 years and 10 months, son of Elijah and Content S. Colman, of East Livermore. He was employed as boy in the steward's department, and was highly esteemed on board for his steady, temperate and moral habits. In the short time of his acquaintance, and his last illness since the 6th, and deeply lamented by a large circle of friends. May the bereaved receive consolation in the belief that the Father doeth all things right.—Lewis.

☞ All city papers copy.

In Bangor, Sept. 10, Rev. E. Cary, formerly President of Waterville College.

In Albany, N.Y., March 6, Mr Henry Van Rensselaer, 83.

Assessors' Notice.

THE inhabitants of the City of Bangor, and others having taxable property within said City, are hereby notified and requested to deliver to the undersigned, Assessors of said City, true and perfect lists of all their polls and estates, real and personal, including moneys on hand, notes and on interest, and debts due more than ordinary and collectable, and all kinds of stock in trade, or otherwise, (except such as are exempted by law from taxation,) which they have to or possessed of on the first day of April next, and to be prepared to substantiate the same on oath.

And for the purpose of receiving such lists, the undersigned will be in session at their office, during the business hours of each day, from the 1st to the 15th days of April next, Sundays excepted. And any personal application or appeals to the Assessors will not be considered as a compliance or neglect of any person in these respects unless such lists as required by law.

Those persons who neglect to comply with this notice, will be liable to a penalty of [illegible] per cent on the amount of their taxes, for abatements.

Public School Notice.

THE Superintending School Committee of the City of Bangor will be in session at Mrs. Hall's School Room, Banks' Lot, on THURSDAY, the 30th inst., at 2 o'clock P. M., to examine females as teachers, and to arrange to take charge of Intermediate and Primary Suburban Schools in the several districts in the city.

They will also be in session at the same place and hour, on FRIDAY afternoon next, for the examination of candidates for admission to the High Schools for Boys and Girls, and of others who may be before unacquainted with the rules which govern admission to either the Select and Grammar Schools.

Notice is also given, that Philip Weaver will be at the office of the Superintending School Committee every day the present week, between the hours of 11 and 12 o'clock A. M., to attend to any business relative to schools for which the attendance of the Committee is desired.

Per order of S. S. Committee,

C. P. ROBERTS, Secretary.

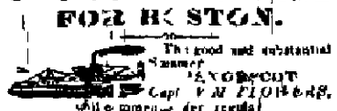
Important Bargains Offered.

LOTS of Land for Rural Dwelling Houses, with large Fruit and Vegetable Gardens, adjoining the city, mostly on the continuation of French St. and Broadway, and a street laid out and three-fourths of the way to the Park. This street is 66 feet from State Street to the Park, and about 1600 feet through city limits, exclusive of the wide road of Mt. Pleasant. This land is considerably higher than the Park, and much higher than the city, and commands a fine view of the city and surrounding country.

Also, land for Orchard and Farming, on the Upper Road to Orrington, known as the Dunning Farm, and near the most considerable view of some part of the city.

This land is considered the most desirable for residences in the city, and is much nearer than any other land which I have offered for sale. Also, wood and timber for sale, consisting of about 1000 cords of wheat to the acre, (as may be seen by the crops on the land,) and some timber for frames, boards or wood and timber, and some timber for frames, boards or wood and timber, and some timber for frames, boards or wood and timber,

OPPOSITION LINE FOR BOSTON.



The good and substantial Steamer

KENNEDY'S MEDICAL DISCOVERY

The Greatest Remedy of the Age!

MR KENNEDY of the firm, has discovered in one of our common pasture weeds a remedy that cures *EVERY KIND OF HUMOR* from the worst Scrofula down to a common Pimple. He has tried it in over eleven hundred cases, and never failed in but two. He has now in his possession over one hundred certificates of its value all within twenty miles of Boston.

Two Bottles are warranted to cure any case of Ringworm in the worst stage.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will cure the worst case of Blotches on the face.

Two bottles are warranted to cure the worst case of Tetter.

Three to five bottles are warranted to cure the worst case of Erysipelas.

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running of the ears and blotches in the hair.

Four to six bottles are warranted to cure the most desperate case of Rheumatism.

Three to five bottles are warranted to cure the worst case of Salt Rheum.

Five to eight bottles will cure the very worst case of Scrofula.

A benefit is always experienced from the first bottle, and a perfect cure warranted, when the above quantities are taken.

Nothing looks so impossible as those who have in vain tried all the wonderful medicines of the day, that a common weed, growing under the pastures and along old stone walls should cure every human ailment, yet so it is. Some who have taken it have been cured in a few days, and have been astonished at the immediate effect it has had upon their system, yet it never fails. If you have a humor in you it will expel it. The remedy is not ours and it costs you nothing to try it. The remedy is ours but none the less yours. He has prepared over a thousand bottles of it in the vicinity of Boston, and known it effect all of it in every case. It has already done some of the greatest cures ever done in Massachusetts. He gave it to children a cursed with sore eyes, and in a very few days their eyes were as well as ever. Some of the worst cases of Scrofula, Erysipelas, Blotches, Ringworm, Tetter, Salt Rheum, Pimples, Humors in the eyes and ears, and Rheumatism, that ever came under the observation of the most skilful physicians, have been cured by the use of a few bottles of this Great Remedy.

Read the following certificate from Rev Dr Lord, one of the Presidents of Dartmouth College, and Rev Dr Leonard Woods, Abbott Professor of Sacred Literature in Andover Theological Seminary, Mass. His Excellency Governor Metcalf, Secretary of State Vermont, and hundreds of Ministers, Merchants, Lawyers, Judges, Editors, Members of Congress, Governors, &c. &c. &c. Also Rev Dr Lord's Wife,
